Craft Tour Chettinad

Woodcarving and sculpting

The Chettians incorporated the wealth of wood sculpting and craftsmanship in their homes, best seen in the exquisite and intricate carvings on the doorways. The great wood artisans also produce beautiful, delicately carved sculptures, statuettes and other artefacts.

Athankudi Tiles

Athankudi Tiles, named after their place of manufacture in Chettinad, are handmade in myriad colours and patterns by a unique process using local soil. Visit a tile making unit to witness the magic of sand being converted into beautiful and colourful Athankudi tiles.

Kandangi Sarees

The sarees are handloom, made from thick, coarse cotton and capable of withstanding the roughest wash. The traditional weaving families are still weaving the sarees in the traditional way. Visit one of these beautiful traditional mills and let yourself be amazed.

We look forward to welcome you to Chettinad and guide you through the wonderful world of the Chettinad crafts in a responsible way. Take the change to take a peek into the lives of the traditional and local families. Do not hesitate to contact us for questions or bookings, we will always try to meet your wishes.
